

ABOUT US

Udayana One Health Collaborating Center established on July 25, 2016 by the Udayana University Rector, based on the desire to strengthen and enhance campus capacity in tackling health problems by using the concept of One Health and the Tri Dharma Perguruan Tinggi

Multipurpose Projects Collaboration

As part of center under university's wing, we have objective to support university goals in providing excellency on education, research, and community empowerment. Thus, we design multipurpose projects that build a strong community engagement including community services, research, as well as education and work experiences. Therefore, the projects are open for collaboration to every sector that has the similar objectives.

Students Involvement

WE INVOLVE THE STUDENTS TO GET A HANDS-ON EXPERIENCE UNDER OUR 'GENERASI ONE HEALTH' CLUB

We develop One Health education based to provide field learning experiences that are ready to be implemented under our One Health Students Club Program.

Aside from One Health training, students were engaged in few practices such as institutional visit and student project.

Students Involvement

Institutional visit was adjusted to Institutional insight because of the pandemic. Participants were introduced to organization or workplace that related with One Health. In this session they learned about the basic of work, value, culture, and experience of organization.

In Student project, the lesson learned from training was applied to an activity which aim for community education and development. From this project, the students will experience on how to do collaboration, communication and coordination.

Expertise in One Health

We are working under university and its network since 2016. As result, we have abundant of expertise and access to experts that related to One Health. We gather and engage the experts from health and non-health sectors in a platform of collaboration.

Experienced Team

Our team is united with the core value of Udayana OHCC. Thus the work environment affect team's professionalism in organizing various projects implementation ranged from government, donor agencies and private sector. In addition, we have hands to reach young professionals through internship and volunteers

APPROACHABLE PARTNERS AND RELEVANT COUNTERPARTS

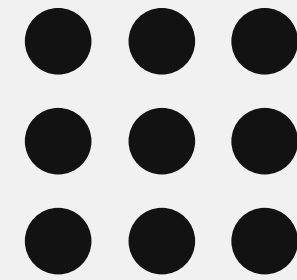

**WE BELIEVE THAT BY HAVING A GOOD RELATIONSHIP
WITH THE GOVERNMENT, THE COLLABORATION WILL
BE POURED INTO ACTION.**

The concept of ABCGM is established in order to involve many sectors for a big goal for better health and well-being. We are in a very pivotal position to approach these sectors as they have their essential role in every One Health project. Through SEA OHUN, INDO OHUN, and Udayana University as our basis, along with our networking, we have direct access and understanding to high level stakeholders at local setting and connection to national and regional level.

Our Community Engagement Projects

The community is the main force of an initiative. We believe that a good relationship with the community will increase the success of the program

Our Community Engagement Projects

Our range of projects in community empowerment varies from health promotion, seminars to health action.

We work with partners ranging from government, business, to civil society.

RESEARCH AND RECOMMENDATION IN MANAGING COVID-19 PROGRAMS

(Mar - May 2020 - Balitbang Denpasar)

(Nov - Dec 2020 - INDOHUN)

Data Collecting

Gather insight, obstacle and suggestion from practitioners in testing, tracing, and treatment on COVID-19

Situation Assessment

Analyzing and assess the information from key sources, along with primary and secondary data before compile it to a general insight of COVID-19 control in Bali.

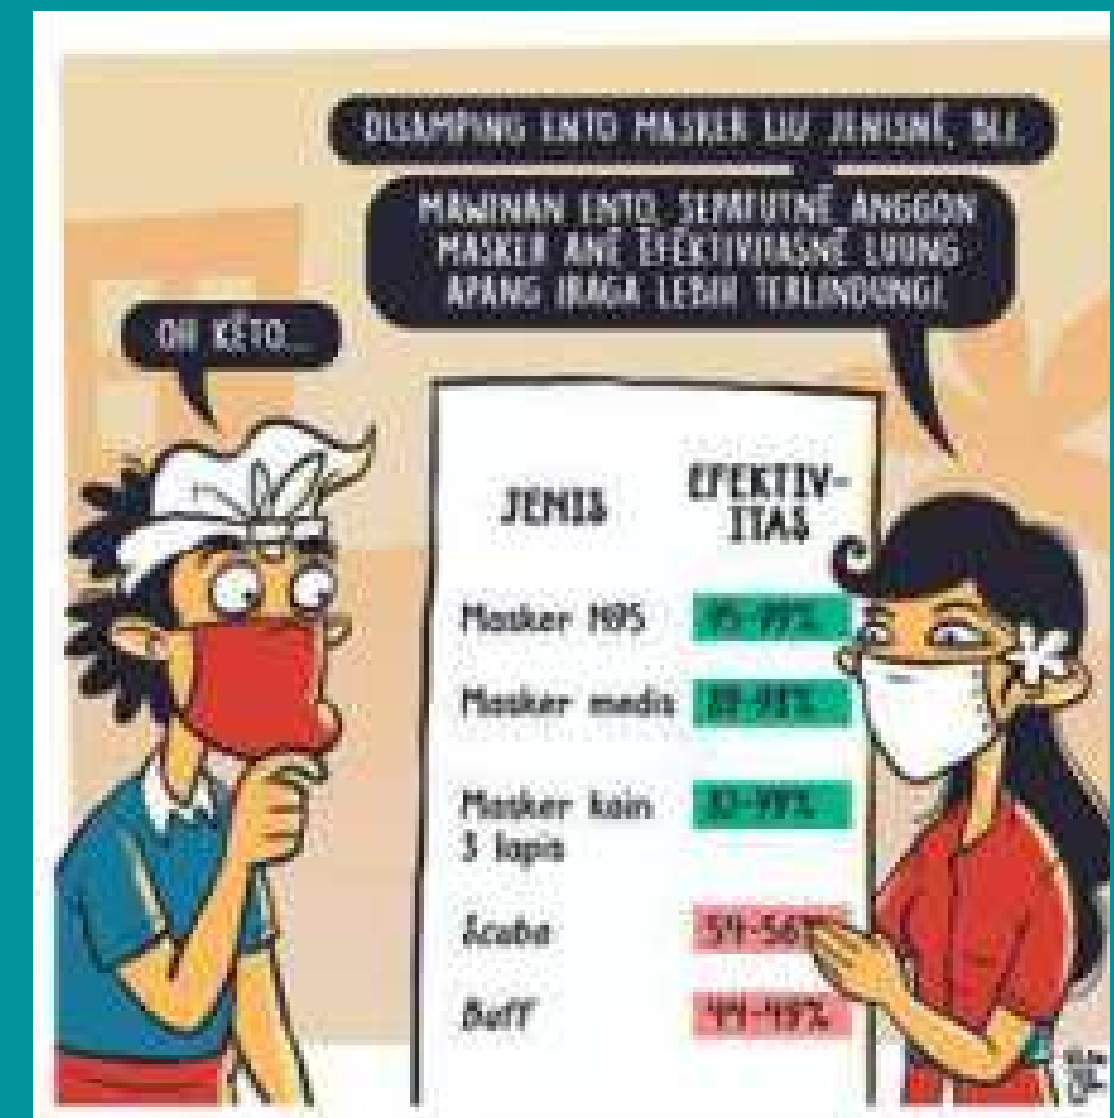

Build Recommendation

Brainstorm and seek solutions for the revealed problems and obstacles in COVID-19, especially in testing, trcing, and treatment

Health Promotional Campaign and Educational Comics

During the COVID-19 outbreak, the awareness in preventing the disease transmissions had to be enforced. We collaborate with various organizations to promote the health preaction to community with local language and cultural approach

Talkshow and Webinar Series

Many issues from various aspects appear since the emergence of COVID-19. Udayana OHCC under OHW-COVID program provided a webinar series to facilitate insight and idea sharing within community to make clear of the issues related to COVID-19.

academician, professionals, and public in general allowed to share and confirm their concern to the issues from many aspects, namely; health, economy, culture, law, health, and anthropology.
